Headteacher Mrs Roberta Harrison

November 2024

Dear Parents/Guardians,

We are excited to offer a new engineering enrichment opportunity for some of our Year 9 students. This engaging program focuses on programming the Sphero RVR+ robot to complete a variety of tasks, blending creativity with technical skills in an interactive and fun environment.

The sessions will run on a Wednesday after school (3:30 - 4:25pm) in S21 for 10 weeks, beginning on 4th December 2024.

Ideally students will need to bring a mobile device (smartphone or tablet) capable of downloading the Sphero Edu app, which will be used to program the robot. If your child does not have access to a device, we have a limited number available to loan during the sessions.

This after-school session is completely voluntary, and there are only 24 places available. If your child is interested in participating, please complete the Google Form below by Friday 29th November and I will respond on Monday 2nd December to let you know if your child has secured a place.

This enrichment opportunity is a fantastic way for students to explore engineering principles in a hands-on way while fostering teamwork and innovation. We look forward to welcoming participants to this exciting initiative.

If you have any questions or concerns, please do not hesitate to contact me at carl.sced@harris.covmat.org

Yours sincerely,

Carl Sced

Head of Science
