ADVICE CENTRE

Your one-stop-shop for all practical life advice they don't teach you at school from how to ace a job interview, money management advice through to everything you need to know about getting your first flat and more!

SUBJECT SPOTLIGHT: P.E

Whilst studying PE you will learn about keeping healthy & fit as well as the systems within the body that are developed when exercising.

The subject also provides an overview of the socioeconomic factors affecting sport as well as sports psychology.

PE is a great subject to study if you want a career in a sports related field.

This could be anything from a sports coach to a physiotherapist to a personal trainer.

Science subjects fit well with PE, particularly if you are interested in studying sports science or psychology in the future.

Boost your CV with FREE online sports related courses with Future Learn

Find out more about sports/P.E careers and further study at Career Pilot

Careers Champions

Our Careers Champions will be meeting again next half term to give their ideas for our 2022-23 Careers Programme.

We will nominate and vote for our 22/23 Champions in September.

Email careers@harriscofeacademy.co.uk to let us know what you would like to see in the careers programme at Harris and we will discuss them in our meeting. Student and parent/carers views are welcome.

Virtual Work Experience

Virtual work experience (sometimes called online, remote or digital work experience) gives young people a chance to gain experience in the workplace, develop their skills, boost their employability and explore new industries and job roles.

At Harris we give students the opportunity take part in work experience during a dedicated week in Year 10. Virtual work experience is an option for students who are unable to find a physical placement or would like access to companies that are not local or do not offer physical placements.

You can also access virtual work experience in your school holidays or spare time to gain skills and boost your CV.

Find links to virtual work experience opportunities on the [Harris website](#).
